

Search Committee Update

The Search Committee will continue to update the parish on a regular basis. In the last two weeks the search committee has met three times. We have received additional training from the Rev. Francene Young the Diocese of Texas transition minister. We have also met at length with Father Mark who shared with us his insights, guidance and recommendations. As a result of those meetings, trainings and a great deal of discussion and working together as a team, the Search Committee has written, rewritten, edited and finalized 38 questions that received the approval of Rev. Young and the Diocese of Texas. These questions target a wide variety of areas that are important aspects of a rector's leadership. We feel well prepared and very confident that our training and work together gives us the ability to conduct interviews and visits in a most competent manner. The Search Committee reminds you we have signed a confidentiality oath to protect the privacy of the candidates and while any of the members of the Search Committee would be happy to discuss the basic process with you, we can not disclose the names of candidates. The Diocese of Texas has told us that we should receive names of candidates in the next few weeks and then at that point we can begin to set up actual interviews and visits.
